FRESCHE SOLUTIONS

We know modern technology. IBM i transformation.

TRANSFORM • MAINTAIN • IMPROVE

Fast Fax

Move Your Fax (FoIP) to a Secure Cloud

2,200+
Global Clients

Key Features

- Improve efficiency by right-sizing your fax capacity

- Reduce hardware and power consumption

- Automate routing and eliminate manual effort

- Centralize fax management, tracking and reporting

- Maintain ownership of your fax numbers

- Manage faxes anywhere via secure VPN

- Integrate with any ERP application

- Easily migrate IBM i fax server to the cloud

- Retain control and security of an on-premise server, unlike public cloud fax

- Ensure full compliance and high availability

Integrated Enterprise Fax Solution for IBM i

Many organizations are running their enterprise fax server on outdated hardware or unsupported operating systems that pose security risks. Virtualizing fax servers and moving them off-premise with a public or private cloud solution modernizes your infrastructure and reduces costs.
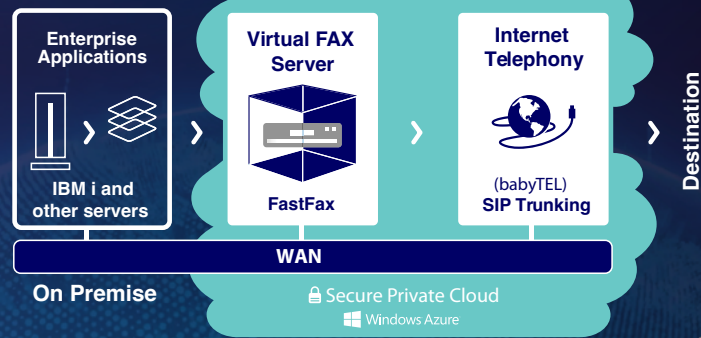

FastFax VM elevates enterprise faxing for IBM i, offering a direct integration with your document-generating apps. This enables automatic fax sending, receiving, routing, archiving, and management—all secured within your network and without the need for on-premise hardware.

> Choosing FastFax was one of the best decisions we have made all year, the solution is flawless. We are saving money on long distance and international charges.
